

CARGO HANDLING SERVICES

WE KEEP IT SAFE

& MOVE IT EFFICIENTLY

Cargo Warehouse Services

Wherever you are shipping from or to, we aim to process your cargo through our terminal and deliver it as planned and in a timely manner through our facilities at Queen Alia International Airport, Amman.

Royal Jordanian Cargo Hub Facilities:

Fast and reliable information systems and automated terminal storage operations to ensure safe processing and tracking of shipments.

Assured shipment security provided by guards, CCTV and access control (220 cameras spread throughout the warehouses and surrounding areas).

Special Storage Areas:

- **Control room temperature storage**, where the temperature is kept between °15+C and °25+C for export cargo. Up to 400 sqm.

- **Cold storage area** for outbound units of fresh fruits and vegetables that maintain temperatures between °2+C to °8+C. 18 pallet positions up to 500 sqm.

- **Deep freeze storage** with temperature as low as °20-C. Up to 100 sqm.

- **Safe room for valuables:** one for outbound and others for inbound units, all of which are CCTV-secured. Up to 42 sqm.

- **Isolated area for dangerous goods.** Up to 86 sqm.

- **Isolated area for radioactive material.** Up to 12 sqm.

- **Isolated area for live animals**, where animals are comfortable and away from harmful environmental factors. Up to 20 sqm.

Spacious Warehouse Facilities:

- **Spacious warehouse facilities:** large import, export and mail/courier warehouses of over 17,000 sqm.

- Modern fleet of over 20 elevation transportation vehicles, forklift trucks and pallet transporters.

- Capacity for 360 aircraft pallet positions and a racking system with 7,400 Euro pallet positions.

Plans for the Future:

We are planning to expand up to 6,000 m² of smart, durable and flexible new warehouse area to allow for the maximum level of efficiency in cargo flow and operations.

Planned Warehouse Expansion Characteristics:

This expansion will increase warehouses spaces and improve the services we offer.

Minimal dispensing error through special cargo storage areas.

Comfortable staff environment.

Safe and easily accessible equipment area.

Temperature zones (WHO and IATA CEIV):

-20°C deep freeze area (100 sqm).

+2°C to +8°C cold room (200 sqm).

+15°C - +25°C temperature-controlled room (400 sqm).

Rooms for vulnerable goods and mobile phone shipments.

Safe-room storage for valuable and precious cargo.

Isolated area for dangerous goods.

Isolated area for radioactive material (40 sqm).

Live animal area (250 sqm).

Shelf racking room (30 sqm).

Pallet racking room with inspection area (102 sqm).

An expansion of around 1,000 sqm will also take place for a new mail and courier warehouse.
